PROFILE INFO

I'm a self-taught AI & ML Engineer and Medical AI Specialist bridging medicine and artificial intelligence. With a strong pre-medical background (96.6% in 9th, 95.3% in 10th grade), I pivoted to code and AI to build impactful healthcare solutions. I build user-centric AI applications in healthcare which make it fast, accurate and accessible.

EXPERIENCE

- INDEPENDENT AI RESEARCHER** 2023-2024
Developing applications at the intersection of healthcare and AI. Focusing on the technical implementation of LLMs and Computer Vision to solve medical accessibility challenges in the region.
- FRONTEND DEVELOPER** 2023-2024
Building and maintaining personal web applications using React.js and modern frontend technologies. Designing and implementing complete user interfaces from concept to deployment.
- BACKEND DEVELOPER** 2025-Toaay
Learning and building backend applications using Node.js/Express or Python frameworks and related technologies. Designing and implementing RESTful APIs and server-side logic for personal full-stack projects.

ACHIVEMENT

- **2024**
Participated in the National Biology talent competition and got 6th position in all pakistan.
- **2025**
Participated in the Copernicus Physics and Astronomy Olympiad and got honorable mention certificate.
